MEL SAFETY INSTITUTE BULLETIN

Checking Driving Histories of CDL-Holders and Annual Program Review

There have been several recent changes at the State and Federal level concerning employers of workers with Commercial Drivers' Licenses. The purpose of this Bulletin is to provide information on the new regulations, review other significant regulations, and provide an annual to-do checklist for public employers of CDL drivers.

New Jersey's recent medical marijuana regulations do not change the Federal laws strictly prohibiting the use of marijuana by CDL drivers or employees performing other safety sensitive functions. Drivers should be reminded of their obligation to surrender their CDL if they begin using cannabis, even if under a doctor's care.

On January 6, 2020, the U.S. Department of Transportation's (USDOT) Drug and Alcohol Clearinghouse (Clearinghouse) became fully operational. Along with it came regulations that all employers of drivers with CDLs must follow. Among them is, at least once a year, employers of CDL-holders must both 1) query the Clearinghouse and 2) check State Motor Vehicle Records about the driving histories of their CDL holders. Starting January 6, 2020 employers and drug and alcohol testing agencies must report test failures or refusals in the Clearinghouse.

In order to query the Clearinghouse, employers must first go online and register as an employer in the Clearinghouse. The registration period is now open. Employers will also need to purchase a Query Plan in order to start conducting queries. There is a \$1.25 charge for each query. They can be purchased in packages ranging from 1 to more than a 1,000.

Registration in the Clearinghouse is optional for CDL-holders. The Safety Director recommends employers require registration in the Clearinghouse and granting the employer Limited Access as part of their employment agreement. Drivers should understand not being registered in the Clearinghouse restricts the driver's employment options, and their ability to monitor their own records. Also, if a query of the Clearinghouse shows a note in the driver's record, the driver has 24 hours to go into the system, register, and grant the employer Full Access or else the employer may not permit the driver to perform any safety sensitive activity.

To grant the employer Limited Access, the driver will need to sign a consent form. A model form is available at the bottom of the MEL CDL webpage, https://njmel.org/mel-safety-institute/model-policies/driver-policies/. Again, employers who cannot verify a driver's clean drug and alcohol history in the Clearinghouse may not, by law, allow a driver to operate a CDL vehicle or perform any safety sensitive activity.

The Safety Director recommends employers work with CDL drivers to register in the Clearinghouse and grant the employer Limited Access as quickly as possible. Consider self-imposing a deadline of January 31, 2020. On February 3, query the Clearinghouse and take appropriate actions depending on the results of the query. If a Limited Query indicates a drug or alcohol note in the driver's history, the employer has 24 hours to have the driver grant Full Access online in the Clearinghouse before the driver must not be permitted to operate a CDL-vehicle or perform any other safety sensitive function.

Employers must also check the State's motor vehicle records (MVR) or driver's abstracts of CDL-drivers each year. In New Jersey, MVRs are verified using the NJ Customer Abstract Information Retrieval (NJ CAIR) Program offered through the New Jersey Motor Vehicle Commission. Visit their homepage at https://www.state.nj.us/mvcbiz/Records/CAIR.htm. Drivers must also acknowledge, in writing, that MVRs are checked each year by the employer.

This bulletin is intended for general information purposes only. It should not be construed as legal advice or legal opinion regarding any specific or factual situation. Always follow your organization's policies and procedures as presented by your manager or supervisor. For further information regarding this bulletin, contact your Safety Director at 877.398.3046.

@ All rights reserved

Designate one or two authorized individuals to order the MVRs from the N.J. Motor Vehicle Commission. MVRs may not be obtained through the local Police Department. Authorized individuals may be the Clerk, an Administrator, a Human Resource representative, or the Police Chief. The designated individual must understand they may not share the information with unauthorized individuals as required by the Driver Privacy Protection Act. *Remember*, these are confidential reports. Department heads who review or act upon the MVR reports must also be aware of the confidential nature of driving histories.

As part of a comprehensive risk control program, public employers should establish acceptable and unacceptable criteria for driving histories. Work with the organization's attorney and administration to establish the levels. Educate drivers on your criteria. The policy must be enforced consistently and without discrimination.

The medical evaluation and qualifications regulations for intra-state exempt CDL drivers have not changed. While most drivers who operate commercial motor vehicles solely for a public employer are exempt from having bi-annual physicals by a DOT-certified medical examiner, they are not exempt from meeting the physical requirements of the USDOT as defined in 49 CFR 391, Subpart E. Employers should annually remind workers that under 49 CFR 391.41(a)(1)(i) it is an obligation of the driver to not operate a commercial motor vehicle if they are not physically qualified. Knowingly violating this law exposes the driver to severe consequences. CDL drivers who drive interstate, or hold Hazardous Material or Passenger endorsements are not exempt from the medical evaluations.

The USDOT requires employers of CDL-holders to have a written policy that defines the roles, rights and responsibilities of drivers and the organization's administration. A comprehensive Policy should include the following components:

- Drug and alcohol testing types, test protocols and criteria, and consequences for violations A Model
 Program Drug & Alcohol Template is available at https://njmel.org/mel-safety-institute/model-policies/driver-policies/ CDL drivers should also be required to disclose medications that could affect their ability to operate commercial motor vehicles and the procedures for when a notification is made.
- Identity of the Designated Employer Representatives and Substance Abuse Professionals
- Medical qualifications and evaluations.
- Reporting motor vehicle convictions to the employer

To assist members, the Safety Director provides the following annual To-Do list for your CDL Driving Program.

Review changes to State or Federal regulations and update the organization's written Policy if needed

- □ Verify name and contact information of the Designated Employer Representative and their alternate, name and contact information of the Medical Review Officer, and name and contact information of the Substance Abuse Professional.
- □ Verify vendor(s) responsible for Reasonable Suspicion and Post-Accident drug and alcohol testing is available 24/7/365 and the information is provided to supervisors of CDL drivers.
- ☐ Supervisors of CDL drivers have received Reasonable Suspicion training.
- ☐ Motor vehicle records of <u>all drivers</u> are checked using the NJMVC CAIR system. A file is maintained with current drivers' signed acknowledgment forms.
- ☐ Drug and alcohol violations of CDL drivers are queried in the USDOT Drug and Alcohol Clearinghouse. A file is maintained with signed Limited Access forms for current CDL drivers.
- ☐ CDL drivers were reminded verbally and in writing of their obligations to disclose to the employer
 - Suspensions, revocations, or cancellations immediately
 - Moving violation convictions, except parking violations, within 30 days
 - Medical conditions that could affect their ability to operate a commercial motor vehicle
 - Prescription or over-the-counter medications that could affect their ability to operate a commercial motor vehicle.

Please contact the Office of the Safety Director if further information is needed.

Annual Reminder to Check Motor Vehicle Records (MVR) of Non-CDL Drivers

Public entities have many employees who operate employer-owned vehicles as part of their duties, or who may occasionally use their private vehicles to conduct official business. As part of a comprehensive risk management program, public agencies must verify that all employees who drive on the agency's behalf possess a valid driver's license and an acceptable driving record. An employer is permitted to check MVR on their employees under the Federal Driver's Privacy Act.

The Safety Director's Office recommends Motor Vehicle Records be reviewed at the following times:

- Once a year for all full-time, part-time, seasonal and volunteer employees who drive an agency or personal vehicle as part of their job responsibilities,
- As part of the pre-employment screening process, and
- Before approving volunteer firefighters, EMTs, or OEM personnel's "Blue Light" applications or renewals.

Employees must be made aware their MVR will be checked periodically. The N.J. Motor Vehicle Commission requires employees to sign an acknowledgment that they are aware the employer obtains driving history abstracts before operating a motor vehicle on employer business, and periodically thereafter. The signed consent can be part of your Employee Handbook or a specific Consent form to check the employee's MVRs. A model Consent Form is available at https://njmel.org/mel-safety-institute/model-policies/driver-policies/. Work with your solicitor to verify it conforms to the organization's operations and any collective bargaining agreements.

Designate one or two authorized individuals to order the MVR from the N.J. Motor Vehicle Commission. MVRs may not be obtained through the local Police Department. Authorized individuals may be the Clerk, an Administrator, a Human Resource representative, or the Police Chief. The designated individual must understand they may not share the information with unauthorized individuals as required by the Driver Privacy Protection Act. *Remember, these are confidential reports.* Department heads who review or act upon the MVR reports must also be aware of the confidential nature of driving histories.

It is important for public employers to have a written motor vehicle policy that encompasses all the types of drivers under their auspices. The Model Personnel Policies and Procedure Manual on the MEL website, www.njmel.org, includes a basic motor vehicle policy. Department managers will most likely need to supplement the basic policy to fully reflect their operations, such as for CDL drivers, emergency response, or employees who are assigned vehicles or may take department vehicles home.

As part of the driver or fleet policy, public employers should establish evaluation standards for acceptable MVRs in consultation with their agency's attorney. Consider the following criteria:

Acceptable: No moving violations and/or preventable accidents over the last 36 months

Probation: Up to 3 moving violations and/or a preventable accident within the last 36 months.

Unacceptable: 3 or more moving violations and/or a preventable accident within the last 36 months, or serious violations such as, but not limited to, Driving Under the Influence (DWI or DUI), Reckless Driving, Homicide or Assault through the Use of a Motor Vehicle, or attempting to elude a police officer.

The policy must be enforced consistently and without discrimination.

Please contact your Safety Director if you have additional questions concerning Motor Vehicle Record policies.

NJPEOSH Recordkeeping - Annual Reminder

February 1st is the deadline to tabulate the Log of Work-Related Injuries and Illnesses (NJOSH-300). The Summary Log (NJOSH-300A) must be posted in a visible area for each establishment, where notices to employees are posted, from February 1 to April 30 of each year.

New Jersey requires public employers to *record* certain work-related injuries and illnesses. In addition, certain serious injuries must be *reported* directly to New Jersey PEOSH within specified timeframes. The rules for recording and reporting injuries can be accessed at https://www.nj.gov/health/workplacehealthandsafety/peosh/peosh-health-standards/record.shtml. NJPEOSH adopted and enforces the OSHA Recordkeeping Laws and Regulations 29 CFR 1904 which can be accessed at https://www.osha.gov/laws-regs/regulations/standardnumber/1904. The MSI provides an online Video Briefing tutorial in the online college of the MEL Safety Institute's Learning Management System.

Recording of Occupational Injuries

There are two important forms for the recording of injuries. The Log of Work-Related Injuries and Illnesses (NJOSH-300) is a listing of work-related injuries and illness that is maintained throughout the year. Injuries and illnesses are entered into the Log within 7 days of being notified of the injury / illness. Five years of NJOSH-300 Logs must be readily available to NJPEOSH inspectors. The second form is the annual summary of work-related injuries, NJOSH 300A Summary of Work-Related Injuries and Illnesses. This summary is posted at each work establishment from February 1 through April 30. Logs should be removed from bulletin boards and filed after April 30. Injury log and summary logs must be maintained for each department.

'Work-related' is defined as any event or exposure in the work environment either causing or contributing to the resulting condition, or significantly aggravating a pre-existing injury or illness. 'Work-related' is presumed for injuries and illnesses resulting from events occurring in the work environment, unless an exception given in OSHA 1904.5(b)(2) applies. Recordable work-related injuries and illnesses are those that result in:

- Death or loss of consciousness
- Days away from work, placement on restricted work activity, or a job transfer
- Medical treatment beyond first aid

Public employers must <u>also</u> record the following conditions if they have been determined to be work-related:

- Any needle stick injury or cut from an object that is contaminated with a potentially infectious material
- Any case requiring an employee to be medically removed under an OSHA health (chemical) standard
- A tuberculosis infection as evidenced by a positive skin test or diagnosis by a physician
- · An employee's audiogram reveals a specified hearing Standard Threshold Shift in one or both ears

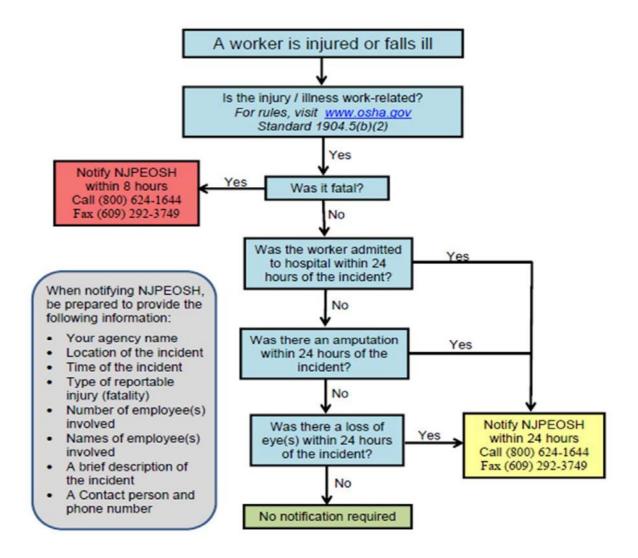

Reporting of Serious Occupational Injuries to NJPEOSH

New Jersey Public Employers must report fatalities to NJPEOSH within eight (8) hours of the occurrence, and report work-related hospitalizations, amputations, or loss of an eye within 24 hours by calling the 24-hour hotline (800)624-1644 or the 24-hour fax line (609)292-3749. Refer to the decision-making flow chart on page 2.

This bulletin is intended for general information purposes only. It should not be construed as legal advice or legal opinion regarding any specific or factual situation. Always follow your organization's policies and procedures as presented by your manager or supervisor. For further information regarding this bulletin, contact your Safety Director at 877.398.3046.

NJPEOSH Injury Reporting Requirements

Notes:

- OSHA defines amputation as the traumatic loss of a limb or external body part, including a part, such as a limb or appendage, that has been severed, cut off (either completely or partially); fingertip amputations with or without bone loss; medical amputations resulting from irreparable damage; amputations of parts that have been reattached.
 Amputations do not include avulsions, enucleations, deglovings, scalpings, severed ears, or broken or chipped teeth.
- If a motor vehicle accident occurs in a construction work zone, you must report the fatality, in-patient hospitalization, amputation, or loss of an eye. If the motor vehicle accident occurred on a public street or highway, but not in a construction work zone, you do not have to report the fatality, hospitalization, amputation, or loss of an eye.
- A work-related fatality or in-patient hospitalization caused by a heart attack must be reported
