#### Section II – Conditions

#### The Amount of Unpaid Claims to be Established

- 1. The general reserving philosophy is to set reserves based upon the probable total cost of the claim at the time of conclusion. Historically, on claims aged eighteen (18) months, the Fund expects the claims servicing company to set reserves at 85% accuracy. The Fund also establishes reserves recommended by the Fund's actuary for claims that have been incurred but not yet reported so that the Fund has adequate reserves to pay all claims and allocated loss adjusted expense liability.
- Claims reserves are subject to regular review by the Fund's Executive Director/Administrator, Attorney, Commissioners and claims servicing company. Reserves on large or unusual claims are also subject to review by the claims departments of the commercial insurance companies or reinsurance companies providing primary or excess coverages to the Fund.

#### The Method of Assessing Contributions to be Paid by Each Member of the Fund

- 1. By November 15th of each year, the actuary computes the probable net cost for the upcoming Fund year by line of coverage and for each prior Fund year. The actuary includes all budget items in these computations. The annual assessment of each participating member is its pro rata share of the probable net cost of the upcoming Fund year for each line of coverage as computed by the actuary.
- 2. The calculation of pro rata shares is based on each member's experience modified manual premium for that line of coverage. The Commissioners also adopts a capping formula which limits the increase of any member's assessment from the preceding year to the Fund wide average increase plus a percentage selected by the Commissioners. The total amount of each member's annual assessment is certified by majority vote of the Commissioners at least one (1) month prior to the beginning of the next fiscal year.
- The treasurer deposits each member's assessment into the appropriate accounts, including the administrative account, and the claim or loss retention trust fund account by Fund year for each type of coverage in which the member participates.
- 4. If a local unit becomes a member of the Fund or elects to participate in a line of coverage after the start of the Fund year, such participant's assessments and supplement assessments are reduced in proportion to that part of the year which had elapsed.

Page 7 ———————————————————————————————————

- 5. The Commissioners may by majority vote levy upon the participating members additional assessments wherever needed or so ordered by the Commissioner of Insurance to supplement the Fund's claim, loss retention or administrative accounts to assure the payment of the Fund's obligations. All supplemental assessments are charged to the participating members by applicable Fund year, and shall be apportioned by the year's assessments for that line of coverage.
- 6. Should any member fail or refuse to pay its assessments or supplemental assessments, or should the Fund fail to assess funds required to meet its obligations, the chairman or in the event by his or her failure to do so, the custodian of the Fund's assets, shall notify the Commissioner of Insurance and the Director of Community Affairs. Past due assessments shall bear interest at the rate established annually by the Commissioners.
- 7. Sexual Abuse Liability Account: The Commissioners may establish a sexual abuse liability account. Reserves, IBNR, expenses, assets, assessments and other assets for this account shall be accounted for separately. After the end of the year before the Fund has finalized its year end accounting, the Commissioners may levy a supplementary assessment if the sexual abuse claims account is negative on a statutory basis.
- At the discretion of the Commissioners, any supplemental assessments may be payable in equal installments for up to ten years. Deferred assessments shall become due and immediately payable if a member leaves the Fund.

#### **Procedures Governing Loss Adjustment and Legal Expenses**

- 1. The Fund engages a claims service company to handle all claims, except for the JIF's POL/EPL and Volunteer D&O, which are handled by Summit Risk Services representing QBE Specialty Insurance Company. The performance of the claims adjusters is monitored and periodically audited by the Executive Director's office, the Fund attorney, the MEL's attorney's office, as well as the claims department of the MEL's three major liability insurers/re-insurers (i.e. General Re and Munich Re for liability, and Safety National for workers' compensation). Every three years, the MEL's internal auditors also conduct an audit.
- 2. Each member is provided with a claims reporting procedure and appropriate forms.
- 3. In order to control workers' compensation medical costs, the Fund has engaged a managed care organization (MCO) whose procedures are integrated into the Fund's claims process.
- 4. To provide for quality defense and control costs, the Fund has established an approved defense attorney panel with firms which specialize in governmental claims. The performance of the defense attorneys is overseen by the Fund attorney, as well as the various firms which audit the claims adjusters.

### Procedures for the Closure of Fund Years, including the Maintenance of All Relevant Accounting Records

- The Fund utilizes the Municipal Excess Liability Residual Claims Fund (RCF) to facilitate the closure of Fund years.
- 2. Upon the transfer of outstanding liabilities of a Fund year to the RCF, the Fund adopts a resolution closing that year and transfers all remaining assets to the closed Fund year account. This amount is allocated by member local units using the same procedure as is used to calculate a dividend. Each month, interest is credited to the closed Fund year account by member.
- 3. Each year, the Commissioners will determine if a dividend is appropriate from the closed Fund year account, and will make application to the Department of Banking and Insurance as appropriate. Further, in the event an open Fund year incurs a deficit, the Fund's governing body will consider an inter-year transfer from the closed Fund year account to offset the deficit. In either case, the dividend or inter-Fund year transfer will be calculated on a member by member basis.
- 4. In the event a member leaves the Fund, the Commissioners may assess the member's closed Fund Year account an amount not exceeding three (3) years stranded costs that the Fund incurs as a result of the member's withdraw. Stranded costs are those expenses incurred by the Fund that would otherwise have been paid from the withdrawing member's assessments had the member remained in the Fund. The dividend of any member that is no longer a member of the Fund and

- 1	Pa	ae	8
	- 4	yv	~

that member's share of the closed fund year account shall be held in escrow until the later of the tolling of the statute of limitations for all potential claims incurred during the membership period or the closure of all incurred claims by the Fund during the period of membership. A former member may apply to the Commissioners for a return of that member's remaining share of the closed Fund year account no sooner than when five (5) years have passed since the last Fund year in which the member participated has been closed. The Commissioners will decide on the former member's request after evaluating the likelihood of any additional assessments from the RCF.

- All dividends from the RCF will be deposited in the closed Fund year account on a member by member basis.
- 6. The Fund will retain all records in accordance with the Fund's record retention program.

### Assumptions and Methodology Used for the Calculation of Appropriate Reserve Requirements to be Established and Administered in Accordance with Sound Actuarial Principles

- 1. The general approach in estimating the loss reserves of the Fund is to project ultimate losses for each Fund year using paid and incurred loss data. Two traditional actuarial methodologies are used: the paid loss development method and the incurred loss development method. From the two different indications resulting from these methods the Fund Actuary chooses a "select" estimate of ultimate losses. Subtraction of the paid losses from the select ultimate losses yields the loss reserve liability or funding requirement.
- 2. The following is an overview of the two actuarial methods used to project the ultimate losses.
  - a. <u>Paid Loss Development Method</u> This method uses historical accident year paid loss patterns to project ultimate losses for each accident year. Because this method does not use case reserve data, estimates from it are not affected by changes in case reserving practices. However, the results of this method are sensitive to changes in the rate of which claims are settled and losses are paid, and may underestimate ultimate losses if provisions are not included for very large open claims.
  - b. <u>Case Incurred Loss Development Method</u> This method is similar to the paid loss development method except it uses historical case incurred loss patterns (paid plus case outstanding reserves) to estimate ultimate losses. Because the data used includes case reserve estimates, the results from this method may be affected by changes in case reserve adequacy.

### The Maximum Amount a Certifying and Approving Officer May Approve Pursuant to N.J.A.C. 11:15-2.22

- 1. \$10,000 for General and automobile liability
- 2. \$10,000 for workers compensation
- With the advance approval of the Fund Attorney, the certifying and approving officer may also pay provider bills if waiting until after the next regularly scheduled FUND meeting would result in the loss of a discount on such bills. When the certifying and approving officer utilizes this authority, a report shall be made to the Commissioners at their next meeting.
- 4. \$50,000 Emergency Court House Authority upon the joint authorization of the Fund Attorney and Executive Director. Whenever this procedure is used, the claim shall be reported to the Commissioners at their next meeting.

#### Best Practices for Snow Emergencies

During the winter months, public agencies in New Jersey must plan to protect their workers and community from accidents occurring on icy surfaces. The following guidelines are offered as suggestions when planning for emergency operations presented by winter storms. Every storm event is different and municipal needs and resources will vary. This document offers best practices that have been identified by our member towns regarding hours of operation, rest breaks, and rotating schedules for before, during and after snow events.

#### Pre-planning

#### · Chain of command

- Identify who will hold command staff positions. Plan for at least two persons for each command staff
  position to staff the command center around the clock for the first day or two for major snow events.
- Develop a written snow plan with defined roles and hierarchy.
- Verify emergency contact information.

#### Staffing

- Supplement crews with back ups, including contractors, utilities, fire department and per diem drivers
- Consider developing a list of retired CDL drivers you might call upon.
- Consider areas that may require the use of contractors with specialized equipment i.e. cul-de-sacs.
- Consider having departments clear their own lots if possible; i.e. fire departments and utilities.

#### · Shift work planning

- Remind workers of need to prepare their homes and families for their absence during the emergency.
- Consider sending workers home early in anticipation of call back e.g. sending a crew home if storm predicted to begin during the night. May be treated as "excused absence."
- Consider shifts of 12 hours of continuous operation (with allowances for meal breaks and periodic rest. periods); followed by 6 hours of downtime. Under extreme conditions, entities may need to extend to, but should not exceed, 18 hours.

#### · Plan for rest breaks / sleeping accommodations

- Entities may need to encourage drivers to stay at municipal facilities. Provide sleeping arrangements at fire and EMS stations, Senior Centers or municipal complex.
- Ensure quiet time at these locations.
- Plan for possible power interruptions at these locations.

#### · Plan for Health and Welfare

- · Consider needs for food and hydration.
- Educate workers on appropriate winter and protective apparel.
- Remind workers to pack personal items such as medications, special dietary needs, etc.
- Remind supervisors and employees that employees on transitional duty may not work beyond their medical restrictions.

This bulletin is intended for general Information purposes only. It should not be construed as legal advice or legal opinion regarding any specific or factual situation.

Always follow your organization's policies and procedures as presented by your manager or supervisor. For further information regarding this bulletin, contact your Safety Director at 877,398,3046.

#### Operations during storm

#### Establish priority routes and areas

- Clear parking lots and access routes of emergency response agencies (police, fire, and EMS) first
- Consider providing sand / salt to use until clearing occurs at municipal facilities

#### · Communication plans / telephone or radio contact

- Establish who will operate as Base (part of incident command structure)
- Determine who takes calls from residents, both emergency and non-emergency (complaints)
- Establish liaison with other towns or agencies, news agencies, etc.
- · Ensure operators remain in constant contact with base
- · Establish procedures for reporting and responding to accidents / incidents

#### Deteriorating Storm Conditions "When to temporarily halt operations"

- · Who makes the final call
- Include the criteria for "temporary halting of operations" in plan, i.e., discontinuing operations until conditions improve, with consultation of major stakeholders,
- · Encourage all who are in the field to report status of conditions for the safety of the entire crew

#### Rest breaks / Fatigue

Inform drivers that they have the personal responsibility to pull themselves from driving if they feel
overly fatigued or diminished. Have a procedure on how the driver will report to a supervisor and how
to address the situation within employment agreements.

#### Rotations

 Incorporate travel distance to work into shift planning. Those who live farthest, home after 12 hours to sleep and return for next shift.

#### Post-Storm Operations

#### · Return to normal operations

- As conditions normalize, transition back to normal 8-hour shifts
- Consider fatigue from the extended shifts when transitioning back to normal operations.
- · Inspect, repair and perform routine maintenance on equipment

#### Conduct after-incident debriefing

- Review with all stakeholders what worked and what challenges were encountered
- · Update Snow Emergency Plan with lessons learned from the event

#### Liability issues – Recommendations to limit liability

- Maintain a record of weather conditions
- Document actions taken, date, time, crews, equipment employed, and materials (salt etc.) used
- Record all complaints with date and time received
- Document specific actions taken and time of action in response to complaints
- Take photographs to record weather conditions and incidents
- · Preserve newspaper articles on storm severity and clean up activities
- Work with police to have their accident reports supplemented with photographs showing conditions

Snow events are difficult. Proper planning and training can ease the strain on employees, managers, and the community. The MEL Safety Institute drop-down menu on the MEL homepage offers Shift Briefing lesson plans on several topics to assist.

#### Minimum Age for Fire / EMS Drivers

Ambulance and fire apparatus crashes are the second leading cause of injuries for emergency responders. Driver error plays a major role in many of these incidents. Properly selecting and training drivers can have a significant impact on the lives of the crews, the reputation of the agency, and the bottom line of the municipality or district.

While establishing a minimum age is a convenient manner to begin training as an emergency vehicle operator, we believe a minimum level of experience is a better measure of when a member is ready to begin driver training. It takes experience to learn to position a fire pumper or ladder truck at a fire, or an ambulance at an EMS call. Consider the many factors that must be evaluated in seconds as a pumper or ladder truck approaches a bread-and-butter structure fire:

- · Hydrant location or tanker supply and laying in hose
- Overhead obstructions
- · Curb, street, driveway conditions
- · Best access to structure
- · Room for later arriving vehicles, and many more

The same types of considerations affect arriving ambulances. Where will paramedics position? Is there an exit route as later arriving units assemble? Traffic hazards? Smoke hazards? And more...

Experience also provides lessons to driver candidates on human tendencies such as 'adrenalin rush', 'wakeeffect', and 'siren hypnosis'. Witnessing these effects in ourselves and others, and learning to recognize and
control them, is a critical component in the maturing process of driver candidates.

For these reasons the Safety Director's office strongly supports driver candidates have a minimum of three years driving experience and three years of EMS / firefighting experience. We also recommend at least one year experience with the fire or EMS agency, to become familiar with specifics of the local roads and operations.

This is just the beginning, however. Agency leaders must ensure driver candidates are carefully evaluated for driving skills, operational knowledge, and behind-the-wheel behaviors for emotional maturity. The evaluation of drivers should be a detailed and well-documented process.

Agency trainers must be aware to properly prepare the candidate <u>before</u> the evaluation. Trainers must be watchful of the candidate's skill, demeanor, and knowledge of driving large vehicles under extremely stressful conditions. This takes time.

Safety Consultants are available to assist emergency agencies in or strengthening training programs. The MEL, on their website, provides a model Vehicle Driving Policy for consideration. The model policy includes training best practices and forms. View the policy at <a href="https://njmel.org/wp-content/uploads/2019/11/FD-Vehicle-Driving.docx">https://njmel.org/wp-content/uploads/2019/11/FD-Vehicle-Driving.docx</a>

#### New Jersey's Domestic Violence for Public Employers

In January of 2018, the New Jersey Legislature enacted the Domestic Violence Policy Act for Public Employers. The law directed the Civil Service Commission (NJCSC) to develop a uniform domestic violence policy and requires all public employers to adopt a written policy concerning the reporting and handling of domestic violence, regardless of whether or not the employer is subject to Civil Service.

On October 15, 2019 the NJCSC issued its uniform domestic violence policy. The policy is posted on the MEL website at <a href="https://njmel.org/wp-content/uploads/2019/11/Domestic-Violence-Policy-for-Public-Employers.doc">https://njmel.org/wp-content/uploads/2019/11/Domestic-Violence-Policy-for-Public-Employers.doc</a> Employers may modify the uniform policy, however, the employer must provide the same or higher level of protection and service to their employees as set force in the model policy. If an employer modifies the NJCSC uniform policy, the employer must submit their policy for review and approval of the NJCSC.

Key provisions of the uniform domestic violence policy include:

- All employees must be covered under the policy, including full and part time employees, seasonal
  employees, interns, volunteers and temporary employees at any workplace location.
- Each public employer must designate a Human Resource / Personnel Officer (HRO) who will be the
  primary contact within the organization for employees involved in a domestic violence situation. The law
  specifies a secondary HRO must also be identified for times when the primary HRO is not available.
- Employees must be made aware of the employer's Domestic Violence Policy and how to report an incident involving themselves or a co-worker. Employees must know their situation will be handled with the utmost in confidentiality and sensitivity.
- An HRO must respond immediately to a request for assistance and provide a safe and confidential location for an employee to describe their concern and request assistance from the employer.
- The State defined a very specific course of action should a HRO become aware of a potential or actual domestic violence case involving an employee.
- The HRO will work closely with local police, if needed, and organizational leaders to implement any needed safeguards, accommodations, or counseling for the worker and other affected employees.
- The HRO should be prepared to guide the affected employee through the provisions and protections of the N.J. Security and Financial Empowerment Act (NJ SAFE).

The law requires the HRO to be trained. The NJCSC provides an online training program for the organization's HRO. The link is provided below.

#### Best Risk Control Practices for Volunteer Youth Coaches

Youth sport programs such as Little League, Pop Warner, and Babe Ruth are an exciting way to build civic pride, family togetherness, sportsmanship, and athletic and cognitive abilities. Many municipalities either directly operate these youth sports programs through their Recreation Departments or indirectly sponsor the leagues, by offering the use of their parks and other facilities. To make this happen, volunteer adult coaches must dedicate their time, and expertise. This Bulletin will provide best practices to protect the children, coaches, and the town.

In 1986, New Jersey became the first state in the nation to enact legislation to protect volunteer athletic coaches, managers, and officials from lawsuits. Often referred to as the "Little League Law", 2A:62A-6 et. seq. extends partial civil immunity to volunteers who have attended a program" that meets the Minimum Standards for Volunteer Coaches Safety Orientation and Training Skills (N.J.A.C. 5:52). One such program is offered in conjunction with Rutgers Youth Sports Research Council and the N.J. Recreation and Parks Association. The Rutgers SAFETY Clinic includes training in the psychological aspects of coaching, general coaching principles, proper training and conditioning of young athletes, and first aid considerations of coaching.

The Safety Director strongly encourages towns that directly operate or indirectly sponsor youth athletics, require all coaches take this course or an approved equivalent class as a condition to use their fields, courts, facilities, or buildings.

In 2018, New Jersey extended the statute of limitations for child abuse and neglect cases substantially, thus placing local officials and employees at a far greater risk. <u>Under New Jersey Law, an official may be held liable for the abuse or neglect of a child if he or she fails to implement appropriate safeguards to protect the child while the minor has been entrusted to the care of the organization. A valid cause of action can be filed by an alleged victim well after the official has left office. It is, therefore, critically important for officials to establish and monitor policies and procedures designed to safeguard minors entrusted to the care of the public entity. The Safety Director encourages all public entities that have contact with minors to adopt a written program and annually meet with all supervisors and adult volunteer leaders of youth programs to review the provisions of the program. In addition, the following "best practices" should be implemented as quickly as possible:</u>

- All prospective employees and volunteers must pass a complete background check, which includes
  fingerprint identification, checking Megan's Law registration for New Jersey and other states the
  individual has previously resided, a credit check, a motor vehicle record check, and a personal and
  professional references. Negative or questionable results must be reviewed BEFORE the applicant be
  permitted to work with minors.
- Prospective employees and volunteers must complete the training program developed by the organization BEFORE the applicant be permitted to work with minors.
- 3. Complete background checks and training must be conducted on an annual basis.

A comprehensive model is under development and will be posted on the MEL website. Notices will be widely distributed when it is finalized and available. Organizations that use adult employees or volunteers in their programs with minor children should start planning to implement all the provisions now.

This bulletin is intended for general information purposes only. It should not be construed as legal advice or legal opinion regarding any specific or factual situation. Always follow your organization's policies and procedures as presented by your manager or supervisor. For further information regarding this bulletin, contact your Safety Director at 877,398,3046.

#### 'First Amendment Audits' Best Practices

The Safety Director's Office has been made aware that there are individuals and groups of people who are actively participating in what is referred to as 'First Amendment Audits'. They claim to be a social movement that audits government entities to promote transparency and open government. Representatives of the groups will show up at government facilities, video record the facilities parking lot making a record of all of the vehicles in the parking lot, check for signs to determine if they can enter protected areas, and enter the public area while recording the operations at the facility.

On some occasions, they will question employees, asking for their name and position. They may ask about accessing official government records and about the process that must be followed. When public employees ask questions, the auditors may refuse to answer and simply inform you that you are a public servant and must answer their questions. The attitude and demeanor of some of these people can be unnerving, annoying, flippant, aggressive, and on occasion, they may use foul and abusive language. Unfortunately, many of these audits may become confrontational in nature.

Once they have completed the audit, many of the videos are posted online for public review. Some of the videos are edited, and they may audio dub the recordings with comments that are designed to demean or criticize the public employees they audited.

The Safety Directors Office encourages all public employers to prepare for a First Amendment Audit. Research, employee preparation and training play an important role in preparing for and mitigating cases that could result in litigation. Discuss with employees what can be said, how to respond to these audits, and who they can contact for assistance.

- Encourage your personnel to stay calm and to be professional at all times. Be helpful, but do not go beyond
  what is required by law.
- Educate employees what is 'required by law' as it pertains to their job duties, such as Open Public Meeting Act (OPRA), permits and applications for permits, and confidentiality rules for public information.
- Do not allow 'auditors' to enter restricted or secured areas within the building. Be situationally aware; they may try to tailgate you while you are entering a secured area of the facility, claiming that they were not aware that their entry was restricted to a particular office or room. Review signage for restricted areas. Ordinances may be required to support your signage decisions.
- Be prepared for a challenge by the auditor referring to the American with Disabilities Act, requesting an
  accommodation or other actions to obtain information to which they may or may not be entitled.
- Discuss with employees a plan of action for dealing with 'auditors' and other difficult people. Provide guidance on co-workers assisting co-workers, requesting assistance from supervisors, and when to request support from law enforcement.

Work with local law enforcement and Solicitor to develop procedures and training for employees and supervisors. Consider a tabletop exercise or roleplaying drill for employees to prepare for the 'real thing'.

This bulletin is intended for general information purposes only. It should not be construed as legal advice or legal opinion regarding any specific or factual situation. Always follow your urganization's policies and procedures as presented by your manager or supervisor. For further information regarding this bulletin, contact your Safety Director at 877.398.3046.

**Risk Management Plan Amendment:** Included in the agenda was a memorandum regarding proposed changes to the Fund's Risk Management Plan. The changes are concerning the long term nature of the exposure from S-477 relating to sexual molestation. Specifically, this amendment minimizes the risk that the JIF may have to assess a former member, years or decades after the member has left the JIF by holding in escrow the former member's share of dividends until the statute of limitations has tolled.

This amendment also assesses members a charge when they leave the Fund for stranded costs related to the costs that will be paid by the JIF to administer claims incurred while the former member was in the JIF. The proposed changes were included in the agenda.

There was a discussion about the nature of the claims, and how these are investigated and is expected to incur more costs than normal tort claims.

The September Financial Fast Track was included in the agenda. It shows a \$3,100,000 surplus, with a nice gain of \$200,000 over the last month. 2019 is running a deficit, we are seeing this JIF-wide, and think it will turn. The funds Loss Ratio Analysis has the actuary's projection of 45% and the actual at 50%, right on target. The fund's Loss Time Accident

If we cancel, earned Assessment shall be computed as provided in the aforesaid rules and regulations. Assessment adjustment may be made either at the time cancellation is effected or as soon as practicable after cancellation becomes effective, but payment or tender of unearned Assessment is not a condition of cancellation.

It is expressly recognized and agreed that you are required to be a member of the JIF as a condition of eligibility for this policy and that, in the event that you withdraw from or are terminated or expelled from the JIF, then this Coverage shall be canceled and terminated as of the effective date of your withdrawal, termination or expulsion. #### C. EXAMINATION OF YOUR BOOKS AND RECORDS

We may examine and audit your books and records as they relate to this policy at any time during the policy period and up to three years afterward. We may do the same as to the books and records of any organization that is deemed to be insured under this policy.

#### F. TRANSFER OF YOUR RIGHTS AND DUTIES UNDER THIS POLICY

Your rights and duties under this policy may not be transferred without our written consent.

#### H. DUTIES IN THE EVENT OF LOSS

#### 1. Discovery of Loss

Discovery of loss by the **Insured** occurs when the risk manager, general counsel, business administrator or Chief Financial Officer/Treasurer or an official of the **Insured** first becomes aware of facts, which would cause a reasonable person to believe that a loss potentially covered by this policy has been or will be incurred, even though the exact amount or details of the loss may not then be known.

Subject to the terms and conditions of the policy, the JIF will pay the Insured for covered loss resulting directly from acts committed prior to the effective date of termination or cancellation of this policy (except when cancellation is due to non-payment of premium), which is discovered by the Insured during the policy period or

Countersigned by:

[JIF] Executive Director

within one year after the effective date of such termination or cancellation; provided, however, the one year extended period set forth herein to discover loss immediately terminates upon the effective date of any other fidelity and crime insurance obtained by the **Insured**.

#### 2. Report to Law Enforcement

If you have reason to believe that any loss involves a violation of law, you must promptly report all details of the loss to the local law enforcement authorities and, when advised by law enforcement to do so, the Federal Bureau of Investigations.

#### 3. Notification & Proof of Loss

Upon your discovery of loss or of a fact(s) which would cause a reasonable person to believe that such fact(s) would give rise to a loss, the **Member Entity** shall, on behalf of all **Insureds**:

- a. promptly give written notice to the JIF of such loss or fact(s) at the address stated in Item \_\_\_ of the Declarations, but not later than 60 days after discovery of the loss or fact(s);

- c. give us a detailed, sworn proof of loss within 120 days;
- d. provide all requested information and documents to Us; and
- e. cooperate with **Us** in all matters pertaining to the investigation and settlement of any loss or related claim..

If the loss is alleged to have been caused by the Dishonesty of any Employee(s), and you are unable to identify the specific Employee(s) causing such loss, you shall nevertheless have the benefit of this policy, provided that the evidence submitted to Us reasonably proves that the loss was in fact due to the Dishonesty of Your Employee(s).

#### 4. Settlement of Loss

The JIF may, with the Insured's consent, settle any claim with the owner of such Assets comprising a loss. Any Assets for which we have made indemnification and any property that we pay for or replace shall become Ours.

#### 5. Basis of Valuation

Subject to the applicable Limit(s) of Insurance, in no event shall the JIF be liable for more than:

- c. Reproduction of Books, Records and Data: the cost of blank books, blank pages or other materials, plus the cost of labor and computer time for the actual transcription or copying of data maintained in any format or medium in order to reproduce books, records and data;

If the lost or damaged Assets are not repaired or replaced, then the Assets will be valued on an actual cash value basis.

#### 6. Agent Theft Obligation

It shall be a condition precedent to our obligation to pay any amount for Agent Theft that the Insured shall exhaust all remedies against the Agent and any other responsible parties and first be paid under all such Agent's contracts, indemnities or insurance, then our liability for Agent Theft shall be only the excess over the amount of such contracts, indemnities or insurance.

#### K. LIMITS OF INSURANCE

Any payment under this policy for a covered loss shall not reduce our liability for other covered loss arising from unrelated acts, except as noted in the Declarations. The maximum liability of the JIF for any single loss shall not exceed the applicable Limit of Insurance amount stated in the Declarations. The Limit of Insurance shall be reduced by the Deductible amount stated in the Declarations.

The Limit of Insurance stated in the Declarations for a Coverage Section shall be the maximum liability of the JIF for all loss arising from a single act or series of related acts under such Coverage Section. In the event a loss triggers coverage under multiple Coverage Sections and all such Coverage Sections are subject to equal Limits of Insurance, then the most we will pay for all loss arising from any single act or series of related acts shall be an amount equal to one such Limit of Insurance regardless of the Coverage Sections under which payment is made. In the event a loss triggers coverage under multiple Coverage Sections that are subject to Limits of Insurance that are not equal, then the most we will pay for all loss arising from any single act or series of related acts shall be an amount equal to the highest applicable Limit of Insurance set forth in the Declarations for such Coverage Sections; provided, however, the lower applicable Limit(s) of Insurance for loss covered under the respective Coverage Section(s), and such Sublimit(s) of Insurance shall be part of, and not in addition to, the Limit of Insurance applicable to all loss arising from such single act or series of related acts.

Regardless of the number of years this policy is in force and the number of claims paid, our Limit of Insurance specified in the Declarations shall not be cumulative over multiple policy periods.

#### L. DEDUCTIBLES

Any payment for covered loss covered under this policy will be less the deductible amount set forth in the Declarations for the applicable Coverage Section.

#### L. OTHER INSURANCE

This policy does not apply to loss recoverable or recovered under other insurance or indemnity; however, subject to all of the terms, conditions and Limits of Insurance of this policy, if prior or other available insurance or indemnity is insufficient to cover the entire amount of the loss, then this insurance will apply to that part of the loss not covered by such prior or other available insurance or indemnity, other than any amount falling within the deductible or retention of such prior or other available insurance or indemnity. If the amount of any deductible or retention of such prior or other available insurance or indemnity is less than the Deductible of this policy, than the loss covered under this policy will be reduced by the amount of any deductible or retention amount applied to loss under such prior or other available insurance or indemnity. If the amount of any deductible or retention actually applied to loss under such prior or other available insurance or indemnity is greater than the Deductible amount under this policy, then no Deductible shall apply to the amount of loss under this policy. The Limit of Insurance for loss under this condition shall be the lesser of the Limit of Insurance of this policy or the limit of such prior or other available insurance or indemnity.

The deductible amounts stated in the Declarations are separate deductibles applicable to each Coverage Section. The application of a deductible to loss covered under one Coverage Section shall not reduce the deductible under any other Coverage Section. In the event a loss triggers coverage under multiple Coverage Sections, then as to such loss the highest applicable

Countersigned by:

[JIF] Executive Director

deductible set forth in the Declarations for such Coverage Sections shall be deemed the deductible applicable to all loss arising from a single act or series of related acts.

#### M. TERRITORY

This policy shall apply to loss incurred by an **Insured** anywhere in the world, unless prohibited by law.

#### N. SUBROGATION

In the event of any payment under this policy, we shall be subrogated to the extent of the payment to all of your rights of recovery. You shall execute all papers required and shall do everything necessary to secure and preserve those rights, including the execution of the documents necessary to enable us to effectively bring suit in your name. You shall do nothing after discovery of loss to prejudice the rights of recovery.

#### N. RECOVERIES

Recoveries (except from sureties, insurance, reinsurance or indemnity), less the actual cost of recovery, made after settlement of a covered loss will be distributed as follows:

- First, you shall be reimbursed for covered loss exceeding the applicable Limit of Insurance and Deductible;
- 2. Second, we shall be reimbursed for the settlement made; and
- 3. Third, you shall be reimbursed for covered loss equal to the applicable Deductible.

Recoveries shall not include recovery from:

- 1. insurance or other indemnity taken for our benefit; or
- 2. Securities after duplicates of them have been issued.

#### O. JOINT INSURED

If more than one **Insured** is covered under this policy, the **Member Entity** shall act for itself and for every other **Insured** for all purposes of this policy. If any **Insured** or official of that **Insured** has knowledge of any information relevant to this policy, that knowledge is considered knowledge of every **Insured**. An **Employee** of any **Insured** is considered to be an **Employee** of every **Insured**. If this policy or any of its coverage sections is cancelled or terminated as to any **Insured**, loss sustained by such **Insured** is subject to coverage only if discovered no later than one year from the effective date of cancellation or termination. We will not pay more for loss sustained by more than one **Insured** than the amount we would pay if all the loss had been sustained by one **Insured**.

#### P. ACTION AGAINST THE JIF

You cannot bring an action against the JIF:

- 1. unless you have complied with all the terms of this insurance;
- 2. until 90 days after you have filed proof of loss with us; and
- 3. unless brought within 2 years from the date you discover the loss.
